0.1.1 What PPBE does

Aligns strategy to resources across the Future Years Defense Program (FYDP). *Planning* (strategy → guidance), *Programming* (balanced force/program → Program Objective Memorandum (POM)), *Budgeting* (validated request → President’s Budget (PB)), *Execution* (obligations/outlays → performance feedback) [1].

0.1.2 Timeline (annual rhythm)

Figure 1 shows the Planning, Programming, Budgeting and Execution (PPBE) timeline across multiple fiscal years with key milestones during each calendar year.

Figure 1. PPBE Timeline for multiple fiscal years. Source: 3.1.1. PPBE (Planning, Programming, Budgeting, and Execution), 2025 [1].

The Platinum Card view in Figure 2 is a quick board sketch for the Planning phase (War aims → strategy → guidance) before the POM/PB forks.

Figure 2. Platinum Card view of the PPBE Planning phase (USD(P)-led strategic guidance path). Source: 3.1.1. PPBE (Planning, Programming, Budgeting, and Execution), 2025 [1].

0.1.3 Congressional Enactment (Regular Order)

Figure 3 highlights how Congress moves from the PB submission through authorization and appropriations when operating on-time without a Continuing Resolution (CR). Being able to walk this chart helps bridge PPBE milestones with Hill activity.

Figure 3. Congressional Enactment Timeline. Source: 3.1.2. Congressional Enactment, 2025 [2].

0.1.4 Key Terms and Definitions

Table lists key terms and definitions.

TABLE I: KEY TERMS IN PPBE	
TERM	ONE-LINER
PY	Last completed FY: execution look-back and CR baselines.
CY	Ongoing FY: execution and mid-year reviews.
BY	Next FY in submission.
POM	Services balanced force/program across the FYDP.
FYDP	5-year program structure and resources.

Other terms and definitions from [1].

Cost Assessment and Program Evaluation (CAPE). CAPE supports the Secretary and other Department of War (DoW) senior leaders through non-advocate, fact-based decision support on the size, shape, affordability, disposition, and readiness of the future joint force to achieve the National Defense Strategy. They do this by: (1) Supporting the Secretary in Analyzing and Adjusting the Defense Program with the Strategic Portfolio Review and by Leading the Department’s Program Review; (2) Facilitating the Acquisition Process with Independent Cost Estimates and Guidance and sufficiency review for Analysis of Alternand (3) Leading DoW’s Analytics and Cost Communities by Building the skills of the Department’s analytical workforce and Providing deeper insights on DoW programs.

Program Decision Memorandum (PDM). Records Secretary of War (SECWAR) program decisions at the end of Program Review.

OPNAV Integration of Capabilities and Resources (N8). Builds the Navy POM; trades across portfolios with cost/risk realism.

OPNAV Warfare Systems (N9). Validates/advocates warfare requirements; integrates by mission area.

Warfare Integration Directorate (N91). Manages cross-domain mission integration and architecture; orchestrates POM issue papers and mission engineering.

Warning

Office designators can shift; verify current subcodes week-of.

0.1.5 Programming v.s. Budgeting

Table I compares key differences between Programming and Budgeting. One way to think about this: (1) Budgeting is for the money for this year and (2) Programming is for the 5-year FYDP.

TABLE II: PROGRAMMING V.S. BUDGETING		
	PROGRAMMING	BUDGETING
Purpose	Build a balanced force across FYDP	Price/validate an executable BY request
Lead	N8 with supporting codes/PEOs/SYSCOMs	FMB/Office of the Secretary of War (Comptroller)/Office of Management and Budget
Key products	POM, PDM	Budget estimate, reclama, President’s Budget

Source: 3.1.1. PPBE (Planning, Programming, Budgeting, and Execution), 2025 [1]

Figure 4 from the Platinum Card captures how the Service-level Program/Budget reviews run in parallel after Planning guidance issues, keeping POM trades and the Comptroller’s reclamation synchronized.

Figure 4. Platinum Card view of the concurrent Program and Budget reviews. Source: 3.1.1. PPBE (Planning, Programming, Budgeting, and Execution), 2025 [1].

0.1.6 PPBE Programming

3-STAR V.S. 4-STAR REVIEWS: During Office of the Secretary of War (OSD)'s Program Review, issues raised on the Services' POMs move first to a 3-Star Programmers Panel (staff-level, chaired by Director, CAPE (DCAPE)) that vets issue papers, builds options (with offsets), and forwards recommendations. Unresolved or strategy-level trades go to the 4-Star forum, the Deputy's Management Action Group (DMAG) co-led by the Deputy SECWAR (with the Vice-Chairman of the Joint Chiefs of Staff (VCJCS)), for senior adjudication. Decisions at this stage are documented as a PDM or (in recent cycles) a programmatic Resource Management Decision (RMD), which updates the FYDP and hands off to the Comptroller's Budget Review that culminates in budgetary RMDs.

0.1.7 Appropriations Life-cycle (Colors of Money)

Figure 5 visualizes when each major appropriation category is Current, Expired, or Cancelled. Pair this with the obligation windows discussion so you can sketch the chart quickly at the board.

YEARS											
Appropriation Categories	1	2	3	4	5	6	7	8	9	10	11
O&M											
RDT&E											
Procurement											
Ships											
MILCON											
MILPERS											

LEGEND		
Current		Available for new obligations, obligation adjustments, expenditures, and outlays.
Expired		Available for obligation adjustments, expenditures, and outlays.
Cancelled		Unavailable for obligations, obligation adjustments, expenditures, and outlays.

Figure 5. Colors of Money Timeline. Source: 3.1.3. Program Funding, 2025 [4].

0.1.8 IGT (Intragovernmental Transactions)

Definition. Orders and collections between federal entities using Treasury’s G-Invoicing: 7600A (order), 7600B (agreement/performance), Intra-Governmental Payment and Collection (IPAC) for collections [5].

Why it matters. Intragovernmental Transaction (IGT) acceptance *is an obligation* on the customer side and the *revenue recognition driver* for the performing Working Capital Fund (WCF) activity.

0.1.9 Common Ordering Instruments

Work Order. Internal directive used within a command to control scope/cost/schedule.

Project Order. Statutory order for a *definite, specific, and entire* project; obligational on acceptance; performs like a contract between DoW activities. (41 U.S.C. § 6307) [6]

Military Interdepartmental Purchase Request (MIPR) (DD Form 448). Economy Act order between federal entities; obligational when accepted; performed by the servicing agency. (31 U.S.C. § 1535) [5, 7]

0.1.10 Fiscal Law (Know These Cold)

Purpose Statute (“Misappropriation”). Funds must be used only for their appropriated purpose (31 U.S.C. § 1301(a)) [8].

Bona Fide Needs Rule. Use current-year appropriations only for legitimate needs of that fiscal year (31 U.S.C. § 1502(a)) [9].

Anti-Deficiency Act. Do not obligate/expend in excess of available amounts or before funds are available (31 U.S.C. § 1341, § 1517) [10].

0.1.11 Reprogramming: Moving Resources After Enactment

FOUR MECHANISMS (HIGH LEVEL).

1. **Congressional Prior Approval Reprogramming (PA Reprog):** Actions above statutory/committee thresholds or affecting congressional special-interest items or new starts. Requires approval from all four defense committees; timing driven by committee cycles [3].
2. **Internal Reprogramming (IR):** Realignment within an appropriation that do not cross thresholds or trigger congressional interest; used for proper purpose alignment without changing totals. Notice sent to committees [3].
3. **Below-Threshold Reprogramming (BTR):** Component-level authority to move funds below set dollar/percent limits within the same appropriation/fiscal year; limits reset annually by appropriations acts/committee guidance [3].
4. **Letter Transfer (LT):** Treasury non-expenditure transfer moving budgetary resources between appropriations/treasury symbols when authorized (e.g., statute or enacted language) [3].

Hint

General rules of thumb—cannot change color-of-money or extend time; must complete before funds' obligation period ends; expired-year accounts limited to valid upward/downward adjustments only [3].

0.1.12 From Enactment to Field Authority

1. Treasury *warrants* the appropriation; Office of Management and Budget (OMB) *apportions* on Standard Form 132.
2. OSD (Comptroller) issues allocations to components such as the Department of the Navy (DON).
3. Office of the Chief of Naval Operations (OPNAV) (Financial Management Budget (OPNAV) (FMB) / OPNAV Programming Division (N82)) allocates to Systems Command (SYSCOM) Budget Submitting Offices (BSOs) (Echelon II), which suballocate to Warfare Centers (Echelon III), followed by *allowances/allotments* to the Enterprise Resource Planning (ERP) system [3].
4. Commands record commitments, obligations, and expenses, and request outlays via Defense Finance and Accounting Service (DFAS).
