

Leader Development Framework

5.2.10

SEAPOWER THROUGH ENGINEERING

TOPIC LEARNING OBJECTIVES

Upon successful completion of this topic, the student will be able to:

1. Understand the Navy Leader Development Framework and how it is used to create leaders.
2. Recognize the EDO Leader Development Framework and its intended use to support officer development.
3. Understand the role mentoring plays in personal and professional development.
4. Using the EDO LDF coupled with CPI-260 and MBTI results, begin to chart your individual course for development.

STUDENT PREPARATION

Student Support Material

1. Individual CPI-260 results
2. Individual MBTI results
3. Individual OPM 360 results

Overview

- Navy Leader Development Framework
- EDO Leader Development Framework
- Leader Development – Your Role

Leadership Transcends…

"There is one element in the profession of arms that transcends all others in importance; this is the human element. No matter what the weapons of the future may be, no matter how they are to be employed in war or international diplomacy, **man will still be the most important factor in Naval operations**. This is why it is so important that under the greater pressure to develop the finest aircraft, the most modern submarines, the most far ranging carriers, and the whole complex of nuclear weapons, we must keep uppermost in mind that **leadership remains our most important task**."

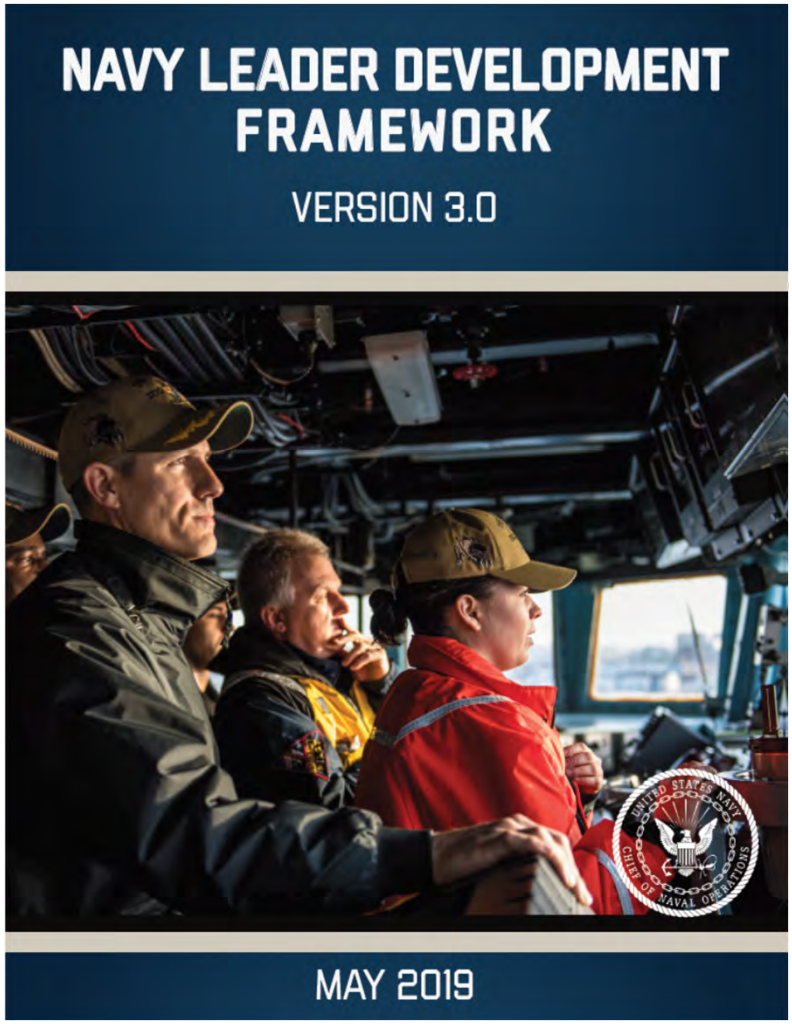

-Admiral Arleigh Burke, Chief of Naval Operations, January 1959

"Events of October 1962 indicated, as they had all through history, that control of the sea means security. Control of the seas can mean peace. Control of the seas can mean victory. The United States must control the seas if it is to protect your security…"

-President Kennedy, onboard USS KITTY HAWK, June 1963

Navy Leader Development Framework

- Directly supports National Defense Strategy and Design for Maintaining Maritime Superiority
  - Max performance from our most important asset: our Sailors
  - Leaders must personally learn and improve their teams faster than our adversaries
- Effective leaders:
  - Demonstrate deliberate commitment ***to grow personally and professionally throughout our careers***
  - Work from a foundation of ***humility*** and embrace Navy ***core values***
  - Pursue ***excellence***
  - Commit to improving ***competence, character & culture*** in themselves and their teams
  - Set ambitious goals and ***inspire*** teams to achieve ***best*** possible ***performance***

Navy Leadership Development Continuum

Why are we doing this…

One Goal

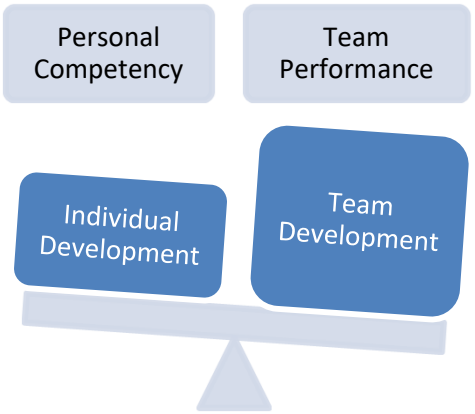

Leaders ***inspire their teams***…they ceaselessly ***communicate, train, test, and challenge their teams***. They are ***toughest on themselves***; they ***routinely seek out feedback***…great leaders bring their teams to a ***deeply shared commitment*** to each other in the pursuit of victory

Three Lanes

- Competence
  - Become experts at our jobs as we grow
- Character
  - Strengthen our ability to always behave consistently with Navy core values
- Connections
  - Intellectual and personal relationships
- Culture (CoE Placemat 2024)
  - Take care of your people, build winning teams, ensure a safe/healthy environment

Balance, a lifelong pursuit…

A leader's personal competency vs team performance…

Focus on team development grows with increased responsibility

Moving Forward as Leaders

Schools

- Mentoring/coaching, professional associations, education

Character, Competence, and Culture

Get Real, Get Better

The Charge of Command

Congratulations on your selection to the most consequential and influential job in our Nation's military: Command. You have earned this position through proven performance and your future potential – and with it comes the responsibility to lead with integrity, courage, and humility. You now shoulder the burden and privilege of leading warfighters at a strategic inflection point – one that may define the future of American sea power. Your unit's combat readiness is not just preparation; it is homework for combat. Your ability to lead under pressure will determine victory if called upon. Build a warfighting culture rooted in trust, accountability, and ownership. Set a clear vision, build resilience, and ensure every Sailor understands the mission, their role in it, and the "why" behind every task.

"The excellence of our people has long been our heritage – it is my source of strength" – ADM Elmo Zumwalt. Our Navy's true asymmetric advantage is not technology – it's our Sailors. They are the lifeblood of the fleet and the decisive edge in any conflict. As Commanding Officer, you must resist the temptation of transactional leadership. Invest in your people with the same intensity you invest in operational readiness. Train them to the highest standard. Take care of their families. Hold the line on accountability. Culture isn't built overnight – it is forged through discipline, transparency, and consistency. Show ownership. Model humility. Learn fast and let your team see you doing it. Communicate clearly, often, and with purpose – so your Sailors know exactly what to do when no one is watching. Build systems that give you deep insight into how and why your unit executes its mission. A unified, high-performing command is built through trust earned in adversity and excellence demanded every day.

"It seems to be a law of nature, inflexible and inexorable, that those who will not risk cannot win" – CAPT John Paul Jones. Risk is Commander's business – and you are now an accountable risk owner. You must deliberately manage operational risk with judgment and resolve. Give clear, actionable Commander's Intent and empower your team under Mission Command principles to execute. You will face uncertainty; make balanced decisions that leverage reversibility, experience, teamwork and objectives. That's why you wear the command pin. Risk is rarely eliminated – it's transferred, and most often, downward to the deckplate. If you don't take ownership of it, someone else will – with less context and less clarity. Master your craft. Sharpen your decision-making cycles. Design repeatable processes that mitigate risk without erasing initiative. The greatest risk to any command is a zero-defect mindset – it breeds fear and paralysis. To win, you must foster a culture willing to take disciplined risk in order to execute with boldness and confidence.

"There are no secrets to success. It is the result of preparation, hard work, and learning from failure" – GEN Colin Powell. In combat, timing beats speed and precision beats power every time – therefore, your command must plan, execute, assess, and adapt faster than any adversary. Once you build a plan, stress it. Rehearse, test assumptions, and refine execution in

EDO Leader Development Framework 3.0

ENGINEERING DUTY OFFICER (EDO)
LEADER DEVELOPMENT FRAMEWORK (LDF)
Version 3.0

06 JULY 2021

VIII. Conclusions

The EDO community is small in numbers relative to the size of our naval force, but as Naval Officers and engineers, we bring extensive technical and acquisition knowledge that serves as the conscience of the Navy. From that perspective, it is critical that we develop well rounded and exceptional leaders to deliver state-of-the-art warfare systems, while also provide adequate sustainment to those systems through their lifecycles to enhance the combat power the Navy offers. We bear tremendous responsibility in the execution of our Navy's budget, shaping current and future acquisition programs, and maintaining and modernizing the Fleet assets. We are building on current best practices and emphasizing character development throughout the individual leader's development journey. A culture of mutual responsibility, where junior and senior share in developing solutions and seeking development opportunities; is essential to our success. At all levels, we have the opportunity to continuously improve ourselves, and those around us, for the betterment of our future. As the CNO said, "Competence and character are so tightly intertwined, that they must be strengthened together… World Class Leadership is our Navy's Decisive Advantage… Navy leaders must have a burning drive to develop their teams to consistently and sustainably deliver maximum performance." The time is now – ***Go Lead!***

William J. Galinis
Vice Admiral, U.S. Navy
Commander, Naval Sea Systems Command

28

- Purpose: Community strategy to develop leaders up to Major Command or its equivalent
- ED School has lead
  - Flag Lead: RDML Small
- Follows CNO Guidance
- Incorporates mentoring policy
- Aligns development continuum (character, competence & culture) with command leadership attributes and notional career path

Community leader development efforts briefed semi-annually to CNO/VCNO

Coaching vs. Mentoring vs. Career Counseling

What's the Difference?

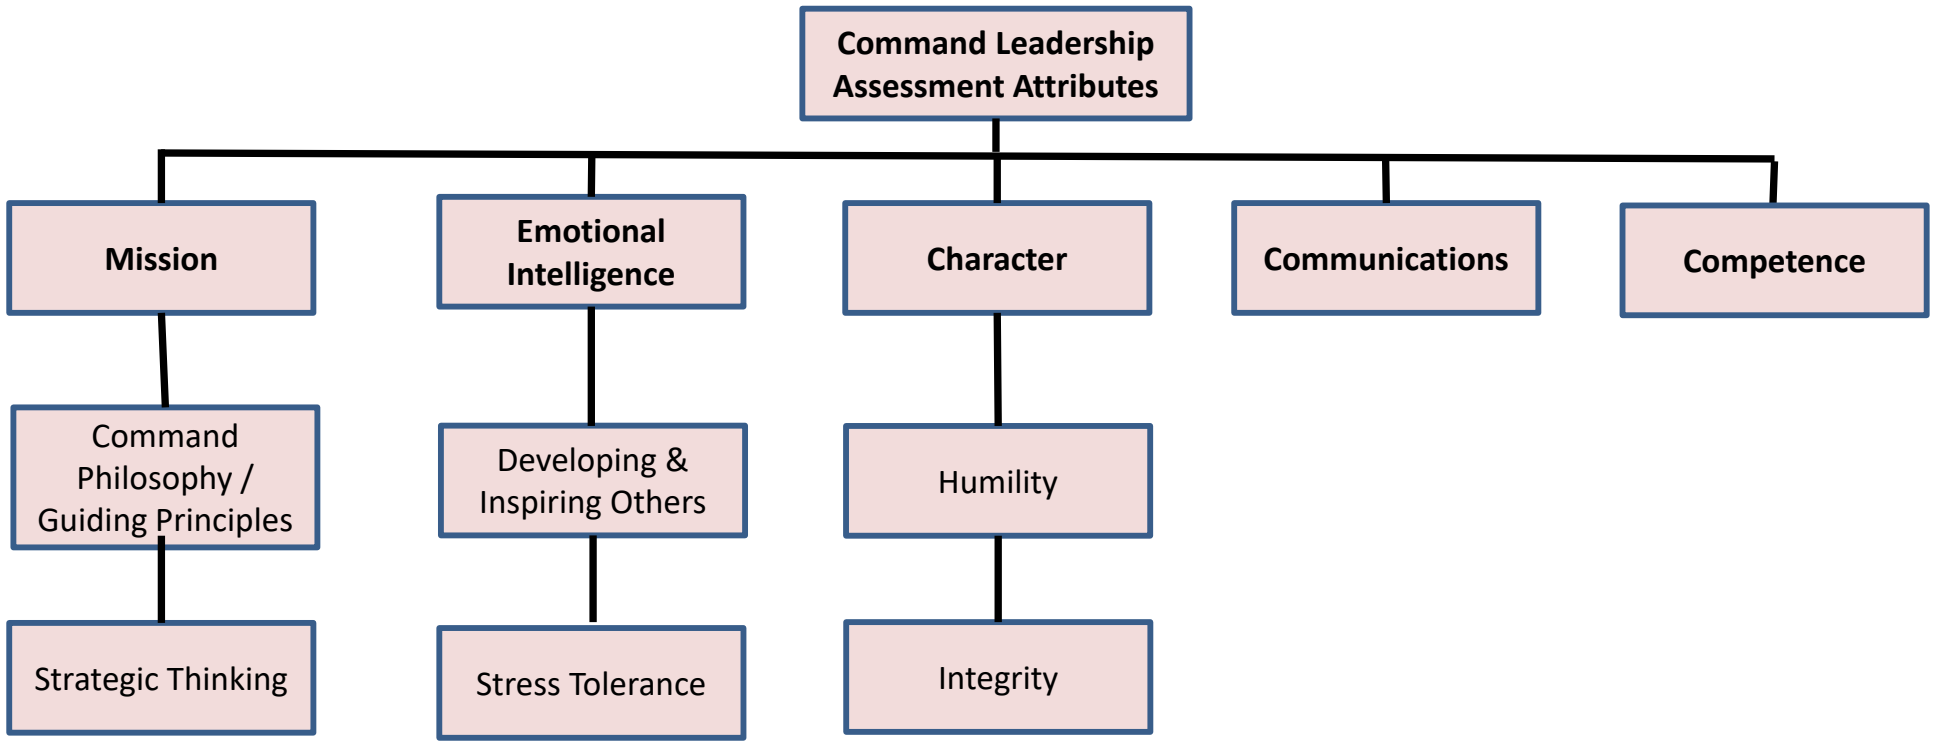

- Career Counseling
  - What we are mostly familiar with
  - Largely focused on career development milestones/timing
  - May contain an element of mentoring, but ***usually*** not an ongoing relationship
- Mentoring
  - A deliberate, ongoing relationship
  - Mentor usually has some experience or expertise that the mentee is seeking
  - Can include career counseling, but typically takes a more holistic view of the officer
    - e.g., personal challenges (work or home) or professional development activities
- Coaching
  - A fixed-term relationship. Typically centered around individual development needs
  - Coach may or may not have any expertise in a subject area
  - Relationship is about helping the individual find their own solutions

Leadership Development - EDO Command Job Analysis (Command Screening)

- Developed by Navy Personnel Command
  - Commissioned US Navy Operational Psychologists assigned to Talent Management Center of Excellence
  - Like Command Job Analysis of other officer communities
- Defines primary attributes most strongly related to success in Command
- EDO Command Leadership Assessment (CLA) will assess EDOs in:
  - Mission
  - Emotional Intelligence
  - Character
  - Communications Skills
  - Competence

Like your URL brethren, Command should be your ultimate career goal!

New Leadership Attributes from Command Leadership Assessment

Attributes from the new Command Screening process

EDO Command Screening Attributes - Mission

Characteristics	Below Average (0-1 - Likely to be ineffective)	Average (2-3 - Adequate)	Above Average (4-5 - Likely to be an asset)
Command Philosophy and Guiding Principles	Unable to identify a **consistent command philosophy or uphold guiding principles**. Does not **prioritize mission** accomplishment or a positive **command climate**. Unable to provide a **strategic vision** or highlight and communicate the **purpose of the mission**. Exhibits organizational rigidity. Failure to identify clear **expectations and standards for self and team**. Lacks a team-oriented approach and does not lead by example.	Develops a command philosophy; though it is not consistent with mission priority, the philosophy still supports a positive command climate, and acceptable guiding principles. Guiding principles might lack consistency with the mission and purpose is not usually highlighted or communicated effectively. Principles are not consistently upheld, and expectations/standards are unclear or limited.	Develops a command philosophy that consistently **prioritizes mission accomplishment, a positive command climate, and guiding principles.** Guiding principles **promote a strategic vision, passion and purpose for the mission**, and a team-oriented approach. Demonstrates organizational agility, sets **clear expectations** and **high standards for self and team**. Leads by example, upholds the command philosophy and guiding principles. **Uses command philosophy, strategy, and mission** as a guide for **decision making**.
Strategic Thinking	**Rigid, impractical,** and/or **ineffective** in their problem solving and decision-making. Either too **risk tolerant or risk averse**. Unable to innovate or find creative **solutions to problems**. **Slow to think critically** or anticipate potential future problems. **Stifles innovation** and discourages input from others. Unable to understand the **larger impacts** to **organizations** and **missions outside the command.**	Can think ahead but may sometimes fail to recognize problems, identify their cause, or assess the effectiveness of plans and decisions. Only sees the strategic vision through the command lens, missing the bigger picture impacts to the Fleet and the Navy. May be indecisive and/or risk-averse at times. Perspective may be somewhat limited, rigid, or imbalanced. May be open to innovative ideas and creativity but may struggle to see how those ideas fit into the larger vision.	Ability to **think ahead in a holistic manner**, supporting the greater Navy strategic vision. **Setting priorities** and considering the **second and third order effects**, while simultaneously managing information and competing demands. Regularly **assesses plans** and flexible enough to **adjust when needed**. Decisive and **deliberate** regarding **risk-taking.** Maintains a balanced perspective, **thinks critically** to solve problems, and has a **growth mindset**.

EDO Command Screening Attributes - Emotional Intelligence

Emotional Intelligence	**Inability to read a room** or relate to others. Failure or unwillingness to fit within the team. Lacks **compassion and empathy**. Unable or unwilling to be fair and equitable; either has favorites or targets individuals. **Unapproachable** and/or off-putting. Poor conflict management.	Moderate ability to read a room and develop relationships with others. Moderate ability to fit within the team and aid in developing cohesive teaming behaviors. Can be somewhat compassionate, empathic, and personable but cannot balance this with fairness. Demeanor is welcoming but sometimes off-putting.	Strong ability to **read a room** and develop relationships with others, strives to fit well within the team. **Accessible and approachable** to the team and to stakeholders. **Compassionate, empathic**, and personable balanced with **fairness**. Welcoming demeanor. Manages conflict with diplomacy.
Developing and Inspiring others	Unable or unwilling to know their subordinates. Fails to earn **trust, inspire, and develop** them. **Micromanages** and/or doesn't trust the team to think or act independently. Discourages **questions, innovation, or dissenting views**. Overly critical, **intolerant of mistakes, and/or risk averse.** Disengaged, **un-collaborative**, or unwilling to interact or support the team.	Occasionally invested in knowing subordinates but might struggle to interact with, build the team, or inspire them. May not always lead by example. May mentor occasionally but does not always empower the team to problem solve and make decisions due to lack of trust, risk aversion, and/or limited experience as a leader. May tend toward either micromanagement or aloofness or alternate between the two without a logical reason. Does not consistently support or promote autonomy or ownership of their work and expertise.	**Genuinely invested** in knowing their subordinates and actively engaged in their personal and professional goals. **Earns trust, inspires, and serves** as a role model for the team. Takes the time to **mentor** and **develop** as needed, while still **empowering** the team to problem solve and make decisions autonomously. Provides **guidance without being directive** and **encourages** team members to take **ownership** of their work, the experience, and expertise. **Good balance** between **providing opportunities** for subordinate development **and mitigating risk**.
Stress Tolerance	**Lacks resiliency.** Crumbles under pressure, may overreact or lose their cool. Does not wear appropriate situational emotions, or appropriately wear the emotions on their sleeve Their stress may trickle down to the team. **Inconsistent and ineffective** with the team, reacts too soon or not soon enough, negatively impacting the mission. Failure to have a healthy **work-life harmony**, **does not encourage** the team to do the same. Tends to be **negative or pessimistic**.	Can be resilient, even keeled, and calm, but that may diminish when under pressure. Stress tolerance is not consistent, may negatively impact the team, especially under pressure or in a crisis. May bring in the team for input, but likely reacts ineffectively at times and may struggle to keep team calm. Positive at times, strives to maintain work-life harmony but may either be a workaholic or take too much time away from work.	**Resilient,** even-keeled, calm under pressure. **Consistent and effective** in managing stressful situations. Serves as the thermostat in the room, promotes a sense of urgency only when appropriate and needed. Brings in the **collective team** to obtain input but is also confident in making a **time-sensitive and/or critical decision** and is able to keep the team focused on that decisive action. Positive, can- do attitude, **strives for work-life balance for self and team**.

EDO Command Screening Attributes - Character

Humility	**Arrogant, insecure, and/or entitled**. Inauthentic, lacks humility. Failure to critically self-assess and/or learn from challenges, unaware of blind spots or is unwilling to change. Not invested in continual learning. Gets defensive, argumentative, or sarcastic when given critical feedback. Unable or unwilling to be vulnerable with others. **Self-promoting**, Unconcerned with the team or mission success.	May sometimes lack confidence or come off as arrogant but can still accept feedback without becoming too defensive. Sometimes authentic and genuine but this shifts as stress increases. Does not always learn from challenges, not always aware of blind spots. May struggle to be vulnerable at times. Only occasionally focused on mission or team success.	Confident in their abilities and who they are. **Humble, authentic, and genuine**. Able to **self-assess**, can learn from challenges, **aware of blind spots**, and makes active efforts to consistently **self-improve** and engage in continual learning. **Open and receptive** to feedback. Comfortable being **vulnerable** with others when needed. **Selfless,** focused on mission and team success.
Integrity	**Lacks integrity, good judgment**, and/or courage to do the right thing. Does not **hold self or others accountable**. Behaviors are not guided by a moral compass. Does not speak up for team or the mission. **Lacks good character**, can be toxic and demeaning, and **treats others poorly**.	Average integrity: may occasionally make poor judgement calls or fail to fully report issues. Moral compass may drift under pressure. May struggle to hold self and others accountable when consequences of doing so are unfavorable, may not always admit when wrong. May lack the courage to speak up for team or mission. Treats others fairly and with respect most of the time.	Strives to do **right always**, good judgment and character, consistent. **Holds self and others accountable** for mistakes and decisions. **Morals and principles align** to support internal and external customers. Has **courage to speak** up as needed for the good of the team and the mission. Speaks truth to power. Always **treats others fairly** and with respect.

EDO Command Screening Attributes - Communication Skills and Competence

Communication Skills	Unable **to adjust various means of communication** (verbal, written, or body language) to different audiences, stakeholders, and settings/IT forms. Talks over or shuts others down or does not seek to **understand others' input**. Dishonest, unclear, or ineffective in communication, gets bogged down in the details. **Unrealistic** when communicating about mission needs and goals.	Communicates effectively but sometimes misses the mark or struggles in one communication form (verbal or written). May have difficulty adjusting/targeting a message to different audiences, stakeholders, and settings. Does not always practice active listening, can shut others down at times. Might be unrealistic when communicating mission needs and goals.	Skilled in **physical presentation, verbally, and written** forms. Capable to communicate to all levels, internal and external to the command. Can easily **adjust and effectively integrate** messaging to reach different audiences in various settings. Practices **active listening** without responding preemptively or shutting others down. **Honest, transparent, and reliable** when communicating mission needs/goals.
Competence	Below average **technical, cultural, and political competence;** struggles to lead a team effectively; struggles to identify and **solve problems** or take initiative. Doesn't understand SMEs and/or follows their recommendations without **critical thought**. **Lacks confidence** in role and abilities and unable or **unwilling to ask SMEs for help**. **Struggles to lead** a team effectively; inability to facilitate teaming resolutions	Average competence: may need additional time to understand SMEs and make decisions based on their recommendations. Generally able to provide leadership and direction to a team. Feels confident most of the time in role and abilities but may not always reach out to SMEs when needed.	Technically, culturally, and politically competent and knowledgeable. Has built **good credibility** for self but also focused on being a **skilled and capable leader**. Takes **initiative** and achieves results. **Confident** in role and abilities, but also **aware** of when to reach out to **SMEs for expertise and assistance**. Provides their team with the tools to do their jobs and **removes barriers** to achieving goals.
